- Student representative of the year in college

Professional Summary

Passionate Java Full Stack Developer who recently completed an immersive training program in Spring Boot and Angular. I'm all about crafting cool web apps and diving into the world of object-oriented programming, RESTful APIs, and front-end magic with Angular. Collaboration fuels my creative fire, and I take pride in delivering top-notch solutions on time. Constantly seeking growth and innovation, I strive to enhance user experiences with cutting-edge technology.

Academic Profile (Highest Qualification)

Qualification: B.Tech.

Stream: Computer Science and Engineering

College: MGM College of Engineering Technology,Pampakuda

CGPA: 7.6

Work experience

Developer 1- Software Engineering (December 2022-present)

Succesfully completed an intensive 6-month training program in Full Stack Development at UST. Throughout the program, I gained valuable hands-on experience in front-end technologies such as HTML, CSS, and Angular, as well as back-end frameworks like Spring Boot and databases. Collaborating effectively with my team, we delivered high-quality solutions within project timelines, sharpening my problem-solving and teamwork skills.
